1995-2000

100% of the respondents were female, and 90% were aged 18 years or older. The majority of respondents were employed (80%), and 60% were married. The majority of respondents were from the United States (70%), and 60% were from the Midwest region. The majority of respondents were from the United States (70%), and 60% were from the Midwest region. The majority of respondents were from the United States (70%), and 60% were from the Midwest region.

For a more detailed discussion of the various methods used in this study, see the Appendix.

Deborah C. Poff

Abstract: A review of the literature on the effects of the 1997 Asian financial crisis on the economies of the Asian region. The review covers the period from 1997 to 2000. The review is organized into three main sections: (1) the impact of the crisis on the Asian region, (2) the impact of the crisis on the Asian region's economies, and (3) the impact of the crisis on the Asian region's financial systems. The review concludes that the Asian financial crisis has had a significant impact on the Asian region's economies and financial systems, and that the Asian region's economies and financial systems are still recovering from the crisis.

1. The first step in the process of identifying a problem is to define the problem clearly. This involves identifying the symptoms, the scope of the problem, and the impact it is having on the organization. Once the problem is defined, the next step is to gather information about the problem. This can be done through interviews, surveys, and other research methods. The information gathered should be used to identify the causes of the problem and to develop a plan of action to address the problem. The final step in the process is to implement the plan of action and to monitor the results. This involves setting up a system of controls to ensure that the plan is being followed and that the problem is being resolved. Once the problem is resolved, the system of controls should be reviewed and updated as needed to prevent the problem from recurring.
